

We make travelling easier for you

Special Needs Restraints

For the safe and comfortable transport of children and adults with disabilities.

Standard features

Precise adjustment

Adjustable headrest with padding

Safety

Five-point belt with soft buckle and shoulder padding

Mounts for original three-point harness belt on both sides

Comfort

Padded armrests with side protection

Adjustability

Backrest can be adjusted to a horizontal position

Flexibility

ISOFIX system for a correct and secure fit

M-FIX system for moving forwards and backwards

Variability

Adjustable padded shoulder sides

Midaan special needs restraints are designed for transporting children and adults with special needs due to their physical or mental disabilities. They are designed to provide additional support for those who have difficulty sitting properly in conventional child car seats.
